Finding Bus Routes in Parentvue

[Click here for translations](#)

Log into your ParentVUE account

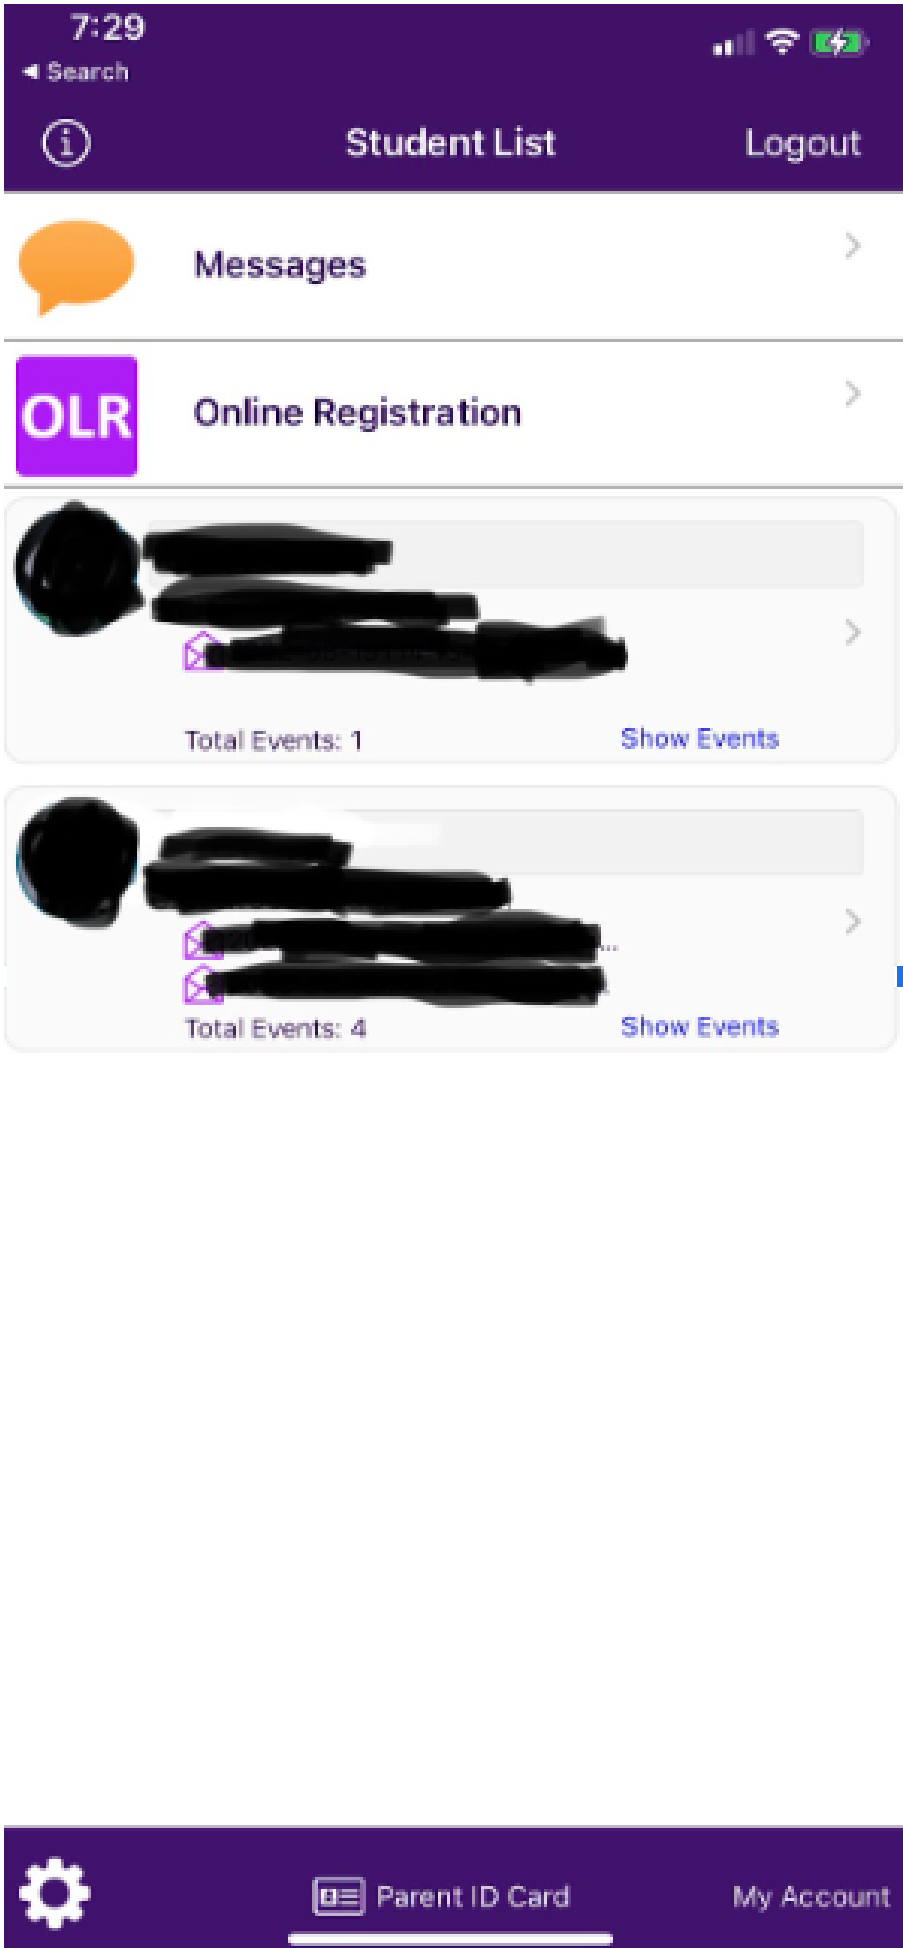

You can log onto ParentVUE on your phone or computer. If you registered online, you DO have a ParentVUE account.

Click on your student

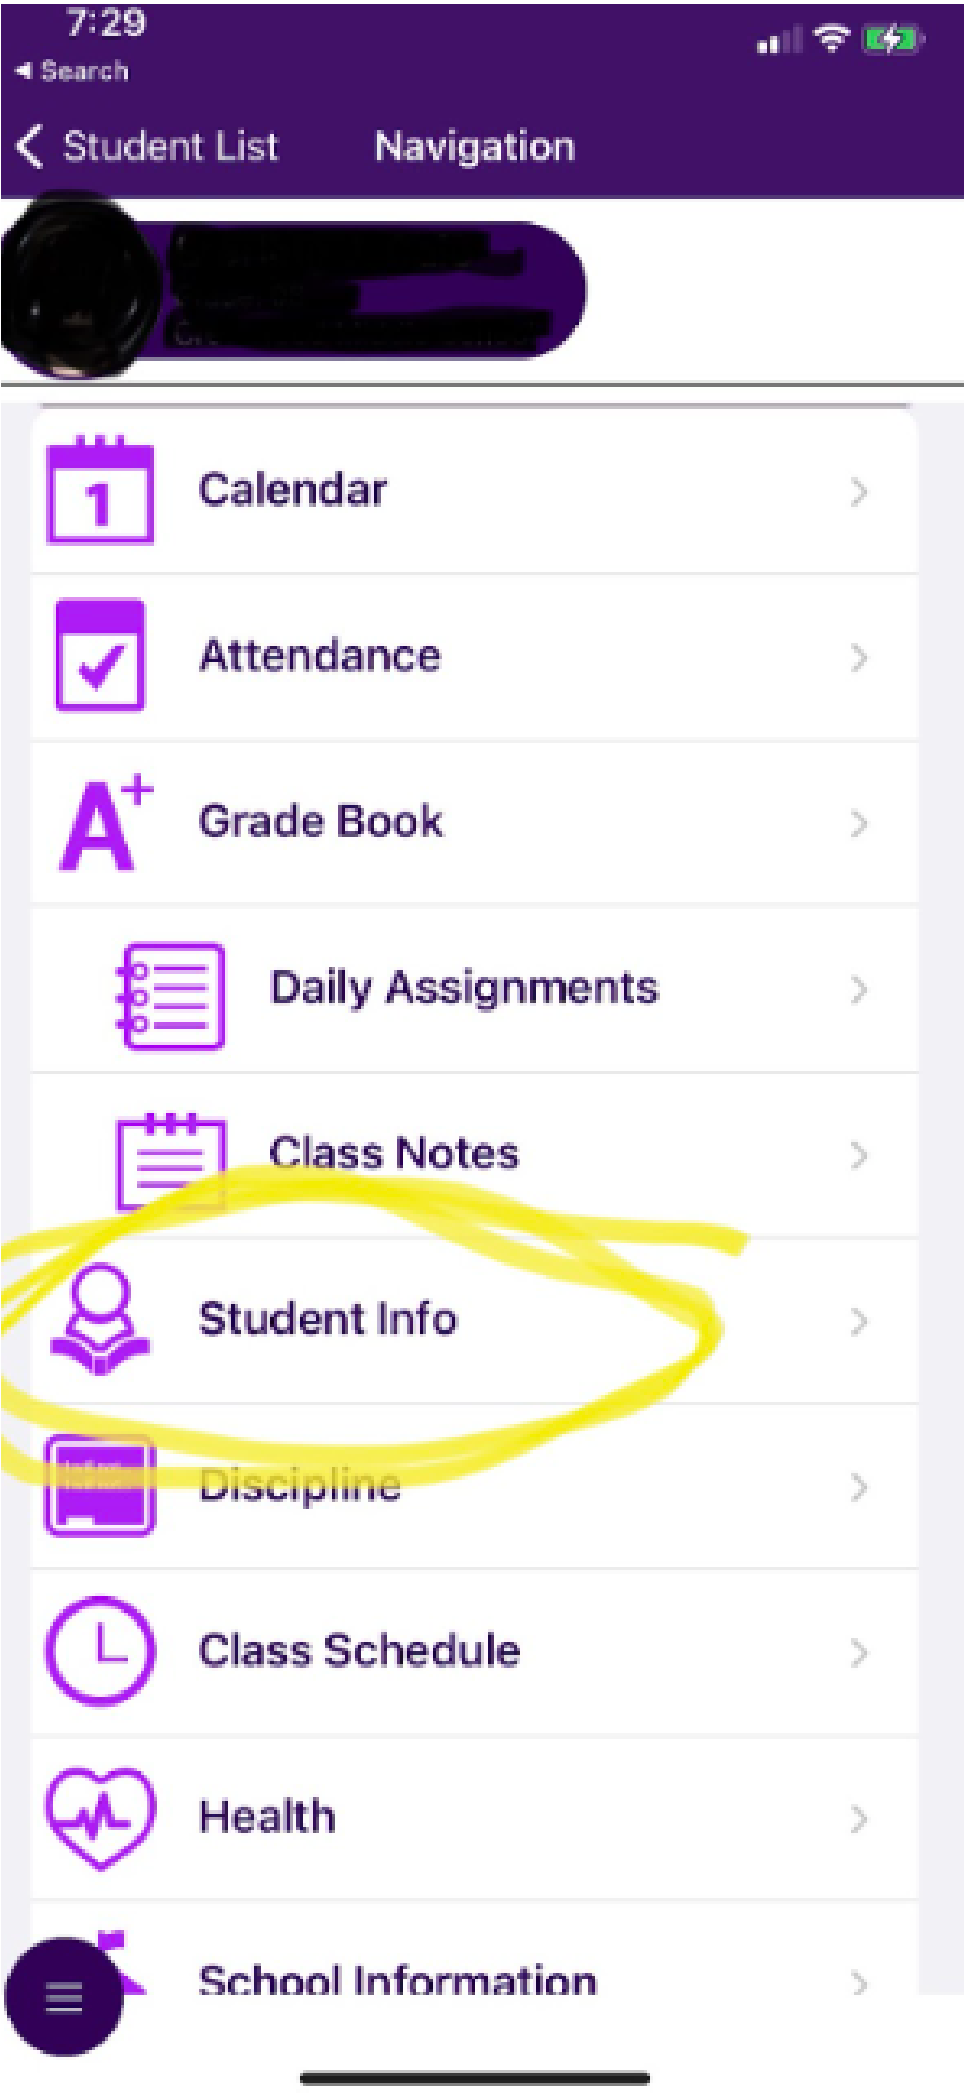

If you have multiple students you will have to choose the right one. If you only have one child at a KPS school, this screen might look different.

Student Info

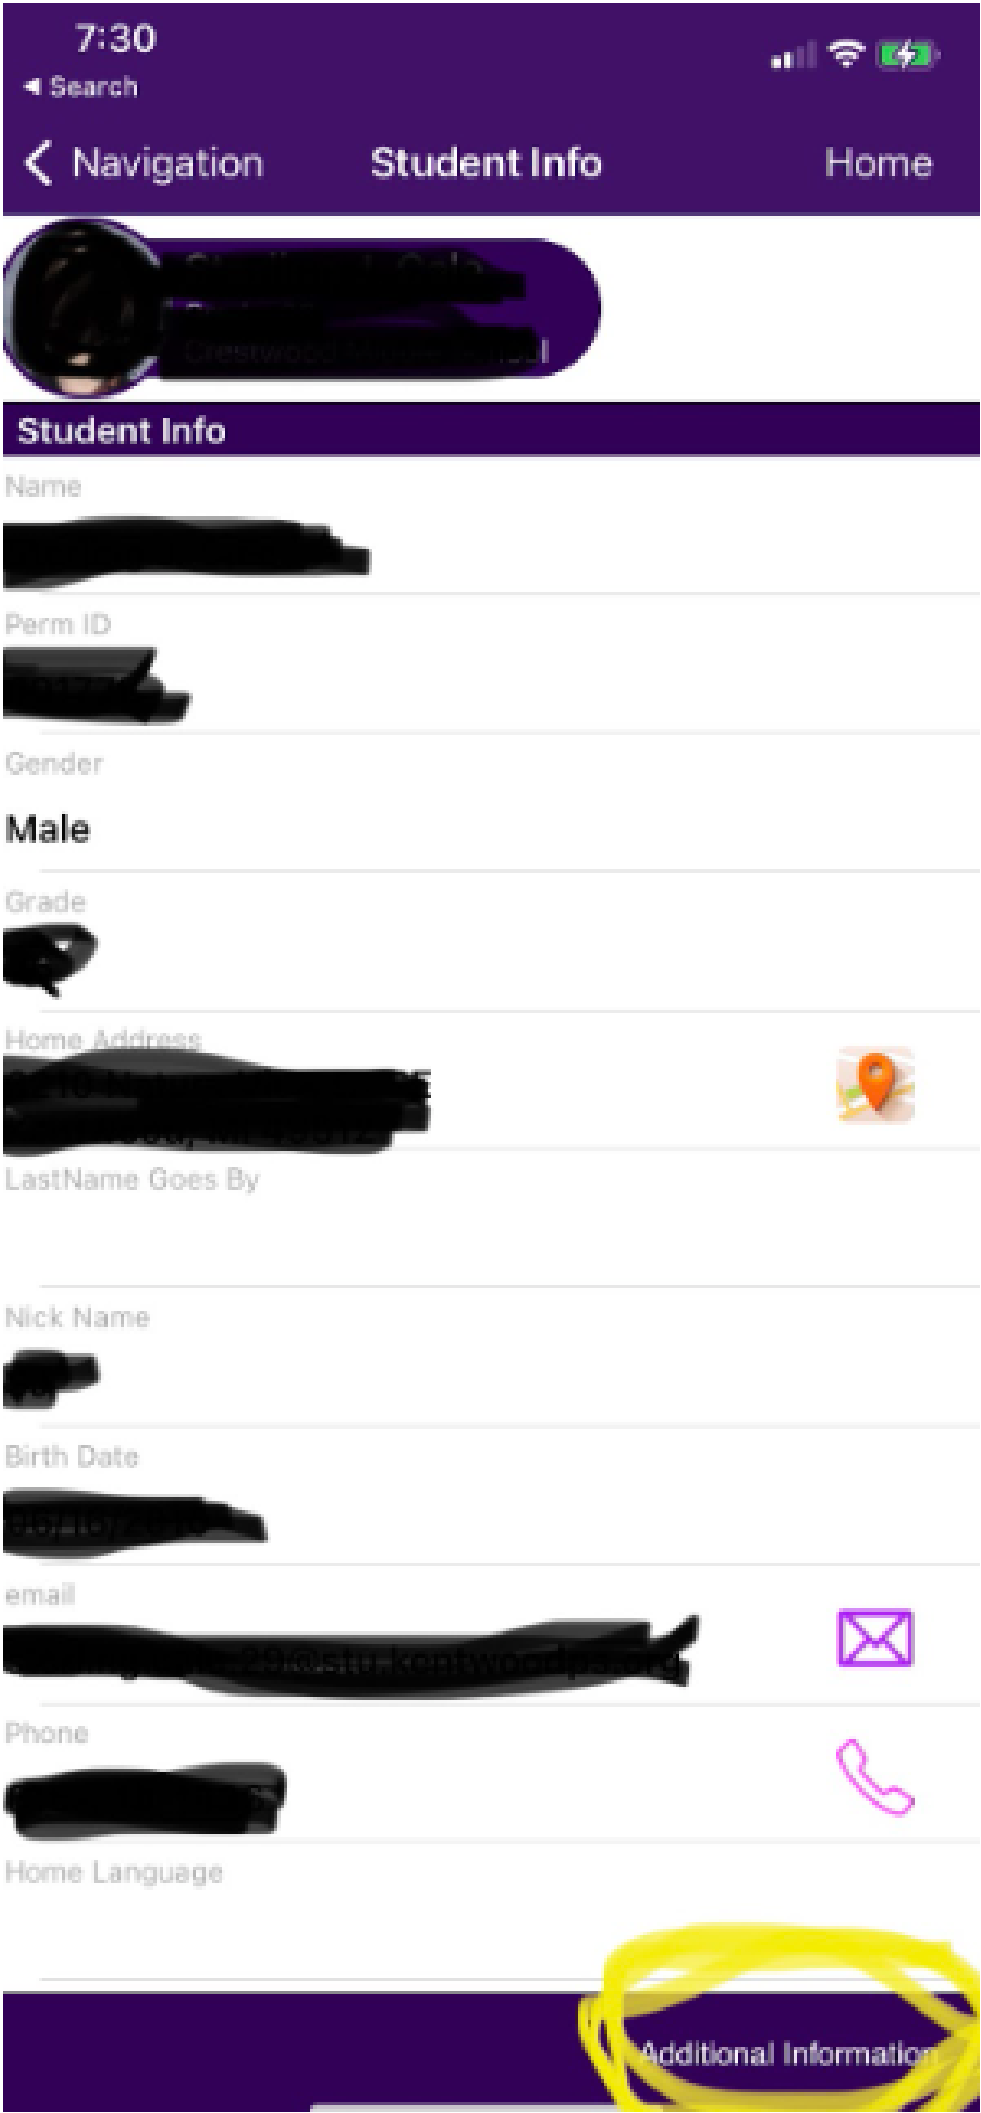

Under your student's profile, click on student info.

Student Info

It's possible that your bus routes will be listed on this screen. If you don't see that information, click on the additional information button at the bottom of your screen.

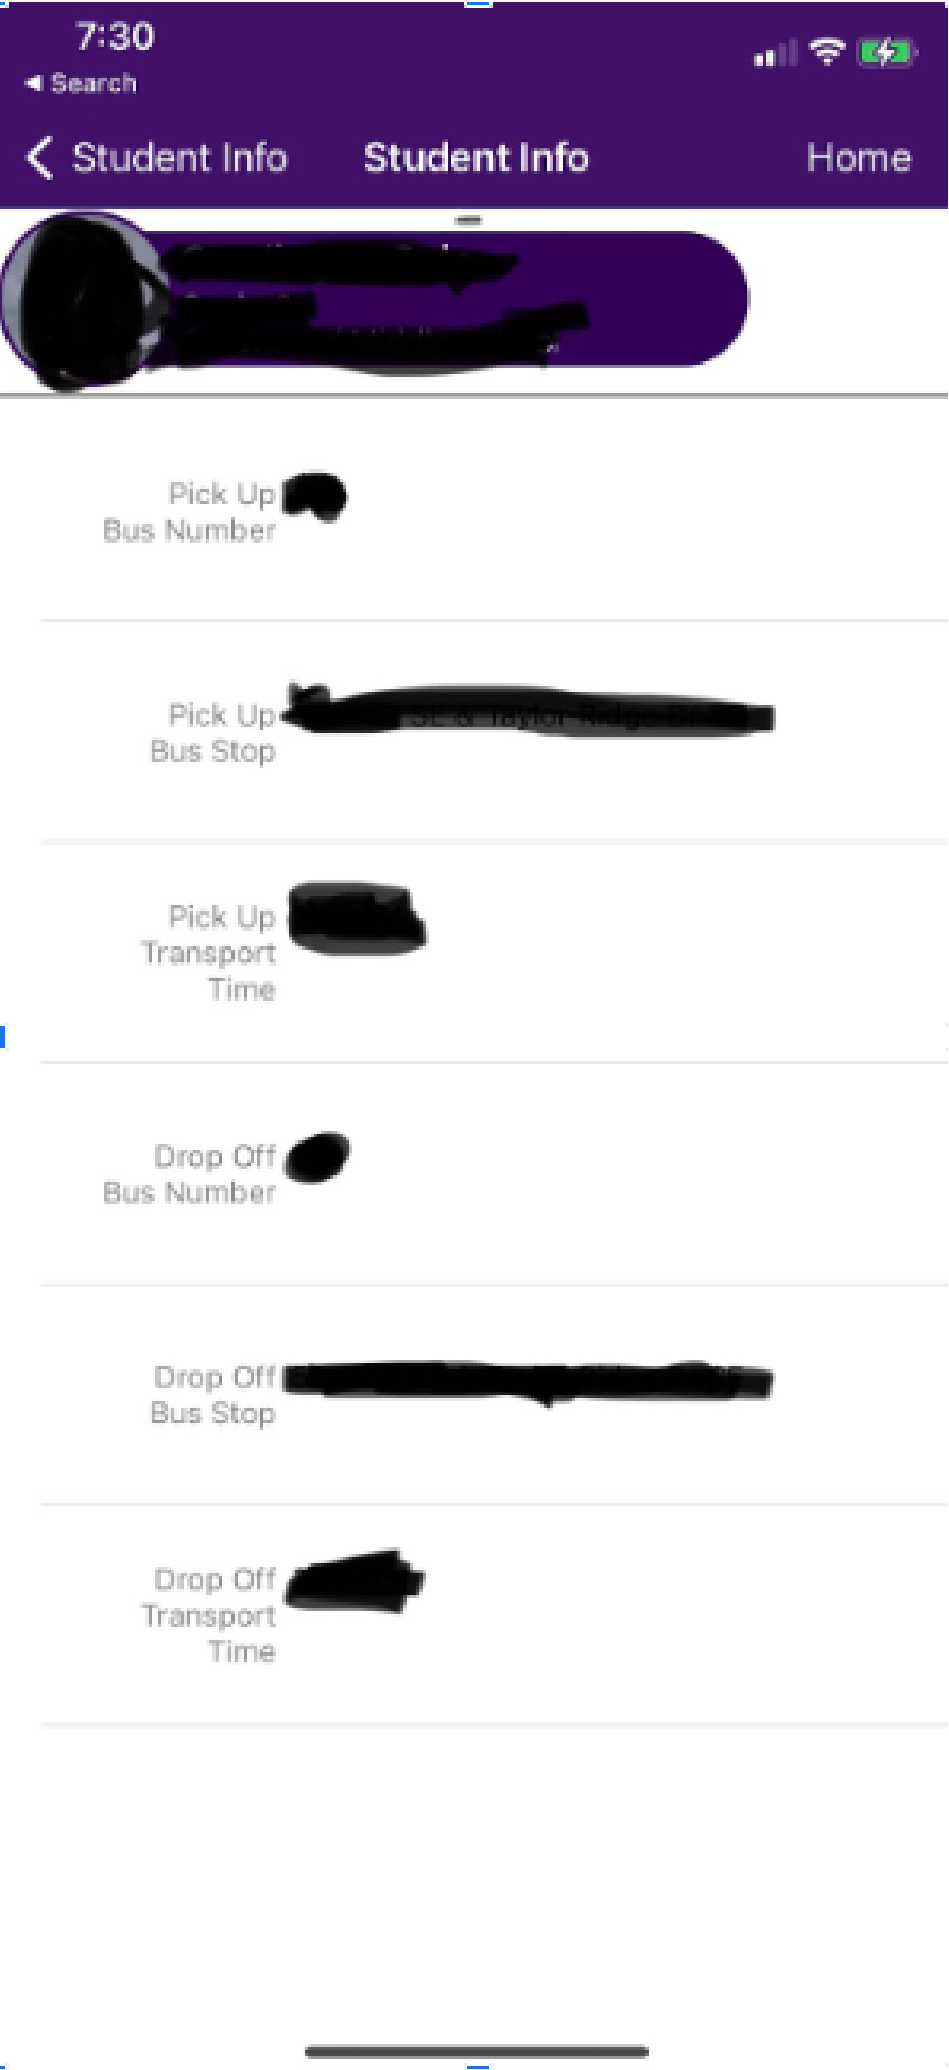

There it is!

Bus information will be listed here if you haven't already found it on another screen. Your bus number, pickup location and times for both morning and afternoon routes will be here.

If these items are blank, it's possible you did not choose "need transportation" when enrolling your student. Contact our office for help.

*Please note - new bus routes may take between 5-7 days to start
