

Endeavor Elementary Parent Involvement Policy

The staff of Endeavor Elementary strongly believes that student success is greatly influenced by parental involvement. Research indicates that children whose parents show an active interest in the educational process have higher achievement levels than children whose parents take a passive role. The more that parents are involved in their child's education, the greater success that child will achieve.

To assist us in reaching our educational goals, Endeavor Elementary has developed a Parent-Student-Teacher Partnership Compact. This compact is an agreement between parents, students and teachers to work together to reach each child's full potential.

Additionally, parents are encouraged to complete a survey regarding school climate, their child's perception of the school, and their personal involvement at school. The information from this survey is evaluated to determine any necessary changes to the overall climate and academic programs that would impact the success of the students at Endeavor.

Endeavor Elementary has an active Parent/Teacher Council that meets monthly with Administration and staff to discuss and plan school-wide events and discuss teaching and learning at Endeavor. Parents are encouraged to attend these meetings, serve on committees and organize events, and provide input into the learning environment at Endeavor.
