

Kentwood Public Schools

Child Nutrition Service Meals Charge Policy

Child Nutrition Service: Students Meal Account Policy at Kentwood Public Schools District provides students with the ability to establish meal accounts, for the convenience of prepaying for student breakfast and lunch. Students may also pay in cash at the point of sale lines. In order to establish an account, it must be pre-paid. In the event, a student's account does not have sufficient funds to cover their meals, they will only be allowed to charge up to 2 Breakfast and 2 lunches before their charge privileges will be revoked. No student will be denied food. However, an alternative lunch may be provided until the account is fully funded. Families may participate in the National Free and Reduced Hot Lunch and Breakfast program, which may allow free or reduced lunch prices for your student based upon family income. More information and Applications are available on the district's website, or by contacting your Child Nutrition Service office at 616-455-3166
